# Sure Fire Ignition System

It is a low cost CDI unit designed for large flywheel engines, such as Arrow, FM, Ajax and many others. Kits for most engines are available.

This unit comes with a full 2 year warranty. Components may be purchased separately or in a complete package.

- Kits include all hardware, brackets and wiring for easy installation.
- We offer a choice of trigger bar lengths for different applications.
- Built-in retard and advance provides for ease of starting.
